

Activate by mixing with water. Shake well. Remove excess soil and waste matter. Test an inconspicuous area for colorfastness before using.

1. Mix 1 part P.O.W. with 5 parts warm water. For more severe odor problems mix 1 part P.O.W. with 2 parts water
2. Thoroughly spray, wipe, or pour solution on problem area saturate carpet to its base.
3. Keep area moist by covering with a damp towel until odor is gone (usually 2 to 24 hours).
4. Clean as usual and repeat if necessary.

Recommendation: If urine odor persists in carpet, moisten area with a diluted mix of 1 cup white vinegar and 1 gallon of water. Blot up, then repeat process.

Note: Do not freeze. Do not use with hot water, bleach, acids, or other harsh chemicals. They can make the enzymes less effective.

Caution:

- Keep container tightly closed.
- Do not take internally.
- Do not reuse container. Before disposing, rinse with water. Dispose of according to local, state, and federal regulations.
- Store in a cool, dry area.
- Avoid eye contact.

 0 - INSIGNIFICANT

P.O.W.

P.O.W. eliminates odors caused by organic waste: such as stubborn pet urine, feces, vomit, and mildew.

P.O.W. contains three (3) active enzymes that produce aerobic and anaerobic stains and will continue to work long after application.

For all water-safe surfaces: carpets and rugs, upholstery, drapes, tile, sealed wood, plastic, vinyl, concrete, clothing, mattresses, trash containers, and plants.

Home - Hospitals - Autos - Motor Homes - Kennels

- Non-Toxic
- Eliminates Malodors
- Digests Organic Residues
- Non-pathogenic
- Biodegradable
- Non-staining
- Harmless to pets

Contents:

Non-ionic Surfactant CAS No. 26027-38-3

Viable Bacterial Cultures

One Gallon - 3.785 Liters

Harmful if swallowed. Avoid contact with skin or eye, and flush affected area with plenty of water. If swallowed, do not induce vomiting. CALL A PHYSICIAN.

Caution: Keep out of the reach of children.
